

INVITATION

The Organizing Committee cordially invites you to attend the 16th International Congress on Catalysis (ICC 16) that will be held from July 3 to 8, 2016 in Beijing, China. The ICC 16, with the theme of *Catalysis for the Sustainable Development of the World*, will feature the crucial roles of catalysis science and technology in improving the efficiencies of energy production and utilization of fossil resources, developing renewable energy, and abating/eliminating pollutants emission to the environment. The congress will serve as a platform to exchange new ideas and discuss the advances in all areas of catalysis.

TOPICS

- Catalytic Mechanisms - Understanding Catalysts and Catalytic Reactions
- Catalytic Materials - Design and Synthesis of Advanced Catalysts
- Catalysis for Efficient Energy - Utilization, Conversion, and Storage
- Catalysis for Renewable Energy
- Catalysis for Environmental Protection
- Catalysis for Chemicals - Green and Sustainable Synthesis
- Photocatalysis, Electrocatalysis and Biocatalysis
- Cross-Disciplinary - Cutting-edge Issues and Grand Challenges

SCIENTIFIC COMMITTEE

IACS Council and the Catalysis Society of China

CHAIRMAN

Prof. Can Li, Dalian Institute of Chemical Physics, Chinese Academy of Sciences

CONGRESS VENUE

China National Convention Center (CNCC), Beijing, China.

KEY DATES

December 31, 2013	First circular distribution
October 31, 2014	Second circular distribution
November 30, 2015	Deadline for submitting abstracts
